Mike saw a formation but wasn't sure if it was simply a reflection or mushroom induced hallucination. Mike has seen over 1000 Bigfoot videos and has possibly seen him 1.33 times

It was 1:05 PM on a spring day
I had to be at school at 1:30
about 20 blocks away. Being spring
in Regina, you guessed it. It
was MUDDY. The road was impassible
for motor vehicles, nearly so for
pedestrians. I was 8 years. I was
scared of not making it to school on
time. I did make it by 1:35 and didn't
get scolded.

I am speaking of journey down.
Victoria Ave near Park St to Wetmore
School on Wallace St. in 1951.
